NEW LIBERTY LOAN WILL GO AHEAD OF WAR SAVINGS PLAN

Vanderlip Campaign to Sell \$2,000,000,000 Certificates to Begin Dec. 1.

WASHINGTON, Sept. 28.—The campaign to sell \$2,000,000,000 in war savings certificates, Frank A. Vanderlip, chairman of the War Savings Committee, announced to-day, will be

separate from the second Liberty Loan campaign, and probably will begin about Dec. 1.

The Liberty Loan campaign will be ended before the war savings certificates campaign begins, Vanderlip said.

It is felt that this is desirable so that the public may not be confused by having two major Government issues of securities before it at the same time.

Secretary of the Treasury Mellon announced to-day that, with the approval of the President, he has determined to offer on Oct. 1 \$2,000,000,000 or more of United States convertible gold bonds, bearing 4 per cent. interest.

The understanding is that \$1,000,000,000 of the second Liberty Loan series will be offered, and that Mr. Mellon will allot to subscribers one-half of the bonds above that amount. It is anticipated that the loan will be heavily oversubscribed, as was the first Liberty Loan issue. If the subscriptions should reach \$2,000,000,000, therefore, the issue would aggregate \$1,000,000,000.

The second series of Liberty bonds, known officially as "United States of America 4 per cent. convertible bonds," will run for twenty-five years from Nov. 15, or until Nov. 15, 1942, subject to redemption at the option of the Government at par and accrued interest on and after Nov. 15, 1927. The bonds will bear interest from Nov. 15 of this year, and the interest will be payable on May 15 and Nov. 15 each year.

BIG DEALERS AGREE ON BOOST IN MILK; OUTPUT TO BE CUT

Increase to \$3.10 per 100 Pounds for B Grade Will Close Some of Stations.

The milk dealers have agreed to meet the demands for an increase in the price of "B grade" milk from \$2.55 a hundred pounds to \$3.10 a hundred, to take effect Oct. 1, but have declined to take any more of the dairymen's product than the consumption demand calls for.

The dealers claim that the increase in the price per quart, from 12¢ cents to 14¢ cents or over, will further reduce the consumption and necessitate their shutting down some of their receiving stations. Secretary Albert Manning of the Dairymen's League said this morning that the big companies had promised to send him a list to-day of the stations they decide to close. There was no one at the headquarters of the New York Milk Conference Board at No. 2 Rector Street this morning to speak for the largest milk distributors.

Secretary Manning characterized the Food Administration's food economy campaign, in respect to the dairymen's product, as a "milk boycott" which is unjustified.

"Milk," he said, "is the cheapest article of nourishment there is and the people should be encouraged to use it as freely as possible, for the reason that the shutting down of the creameries, or receiving stations, means that the dairymen in the districts affected will have either to make their milk into butter and cheese or sell their cows for beef which would be more profitable, and thus the production of milk will be greatly reduced for a period of years."

As to the cost of production, Mr. Manning said:

"The league is not undertaking to produce figures on the cost of production to show that the prices demanded by the farmers are reasonable, but has asked the College of

Agriculture of Cornell University to make this data as a disseminated policy. The college has announced that a statement setting forth the cost of production figures as the college authorities have found them will be given to the public to-day."

CAN BUY NEW BONDS IN INSTALMENT WAY

Subscriptions for the second Liberty Loan, which are payable in instalments, will be encouraged by the Liberty Loan Committee as a protection to the country's finances. Vice Chairman E. B. Sawyer of the Distribution Committee sent a letter yesterday to every one of the 1,200 banks in the second Federal Reserve district, pointing out the desirability of such part payments, not only as

a safeguard, but also as tending to stimulate business by creating banks, thereby promoting that stimulus which is necessary to the part of the program of this war to be the "cash economy."

E. F. Carey, vice president of the Liberty Loan Committee, said to-day that the Liberty Loan Committee is encouraging the banks to make it a point to direct the public to the part of the program of this war to be the "cash economy."

Washington, Sept. 28.—The Civil Rights bill to create a memorandum for public and private was introduced in the House today in revised form for early action.

Right Corsets for Growing Girls

The right kind of a corset can influence a girl in her posture both when sitting and standing. It will give her an erect carriage, a poise and a bearing of assurance.

One of the departments in which we have always specialized is where the first corsets for schoolgirls are fitted. We have our own models developed, and these are supplemented by all of the better standard makes.

There are all kinds, from the low flexible corsets lightly boned, and the little hip confiners so comfortable for athletics or dancing, to those of broche for better wear.

Prices range from 1.25 to 5.00. 2nd Floor.
